

Press Release

YPOG advises DTCP on its investment in maincubes

Cologne, September 08, 2022 – A YPOG team led by Andreas Kortendick provided comprehensive advice to DTCP on its investment in data center operator maincubes as well as on the implementation of an investment structure for a separate pool of DTCP investors. DTCP joins maincubes as a new strategic partner and takes over the shares from the previous majority shareholder Art-Invest Real Estate. From now on, both shareholders will jointly hold the majority in maincubes.

With the participation of DTCP, maincubes gets an investor whose investments - especially in the areas of data centers, fiber optic networks and mobile towers - significantly drive the transformation of Europe's digital infrastructure. The joint venture between DTCP and Art-Invest Real Estate enables the company to benefit from the investors' expertise in the areas of digital infrastructure and real estate development.

Based on the new investor structure, maincubes will continue to drive its sustainable growth course in order to become one of Europe's leading data center operators. To back this up, the two majority shareholders are planning to invest more than €1 billion in maincubes' growth over the next years.

Advisors DTCP:

Andreas Kortendick (Lead, Tax), Partner

David Wittek (Tax), Associate

About DTCP

DTCP is an independent investment management firm focused on digital transformation. DTCP Infra invests in fiber networks, mobile towers and data centers. DTCP Growth invests in leading cloud-based enterprise application software companies. The driving force behind the firm's strategies is the belief that the convergence of networks, devices and the internet is creating more wealth, disrupting more businesses, and unleashing more innovation than any force in the history of technology. DTCP and its affiliates have offices in Hamburg, London, Luxembourg, San Francisco, Seoul and Tel Aviv.

About maincubes

Headquartered in Frankfurt am Main, maincubes plans, builds and operates a network of variously sized, high-availability co-location data centers. They provide businesses across industries with carrier-neutral, secure, and sustainable space to house their IT infrastructures.

**About Us**

YPOG is a law firm specialized on tax and business law which is active in the core fields of Tax, Funds and Transactions.
